EXPERIENCE

Galilee Oil Investments LLC, San Antonio, TX— *Developer*

July 2017 - Current

During my time with Galilee I have been working as a developer as well as handling and working on some administrative sides of the business. I worked on invoice and workload management as well as maintaining production and accounting data.

Self Employed, Houston, TX— *Freelance Web Developer*

June 2016 - Current

Created websites for small and new businesses in the Houston area. I worked in basic web stack technologies for most projects.

Spectrum Corporation, Houston, TX— *Software Developer/Project Manager*

June 2016 - May 2017

I worked as a web, tools, and prototyping developer here. I primarily worked in mostly Python as well as front and back-end web development in HTML, CSS, Ruby and Javascript. I created prototype web applications with front-end Javascript frameworks such as React.js.

Spectrum Corporation, Houston, TX— *Graphic Designer*

June 2016 - May 2017

Alongside developing software, I worked on print, UI/UX, and marketing design. From product sheets and architect guidelines to 3D design and a business rebranding strategy, I assisted with several aspects of company image maintenance and brand preservation.

Best Buy, Webster, TX— *Sales Consultant*

July 2015 - JUNE 2016

I was a part-time sales consultant, I gained both sales, and social skills from my time here. Leading salesperson in customer interaction.
